

Senior Dog Health Tracker

DAILY CARE · WEIGHT · MEDS · VET VISITS

THIS JOURNAL IS FOR

How to Use This Tracker

Caring for an older dog means watching for small changes before they become big problems. This tracker gives you one simple place to record your dog's daily wellbeing, weight, medications, meals, symptoms, and vet visits — so nothing slips through the cracks, and so your vet gets a clear picture at every appointment.

What's inside

- **Dog Profile & Emergency Contacts** — key info in one place.
- **Medication & Supplement Schedule** — never miss or double a dose.
- **Weekly & Daily Health Logs** — appetite, energy, mobility, mood.
- **Weight & Body Condition Tracker** — spot trends early.
- **Vet Visit Records** — questions, diagnoses, follow-ups.
- **Symptom Diary** — track anything unusual over time.
- **Feeding & Diet Log** — food, portions, appetite notes.

Getting started

- Print the pages you need — reprint the logs as often as you like.
- Keep it somewhere visible: by the food bowl or the front door.
- Bring it to every vet visit — the trends you record are gold.
- Tip: take a photo of completed pages as a backup.

Dog Profile

Name

Breed

Date of birth / age

Sex & neutered?

Colour / markings

Microchip no.

Current weight

Ideal weight

Insurance / policy no.

Allergies

Chronic conditions

Daily medications

Known conditions & history

Vet & Emergency Contacts

CONTACT	NAME	PHONE
Primary vet clinic		
Emergency / out-of-hours vet		
Poison control		
Preferred pharmacy		
Pet sitter / walker		
Backup caregiver		
Insurance helpline

Medication & Supplement Schedule

MEDICATION / SUPPLEMENT	DOSE	TIME(S)	WITH FOOD?	REFILL BY

Daily dose given — tick each time

MEDICATION	MON	TUE	WED	THU	FRI	SAT	SUN

Weekly Health Log

Week of _____

DAY	APPETITE	WATER	ENERGY	MOBILITY	TOILET	MOOD / NOTES
Mon						
Tue						
Wed						
Thu						
Fri						
Sat						
Sun						

Rate each 1–5 (or use ✓ / X). Watch for changes from your dog's normal.

Daily Health Log

Date

Overall day

☐ Great ☐ Okay ☐ Off

CHECK	MORNING	AFTERNOON	EVENING
Ate well			
Drank water			
Medication given			
Toilet (pee / poo)			
Walk / exercise			
Energy level (1–5)			
Mobility / stiffness			

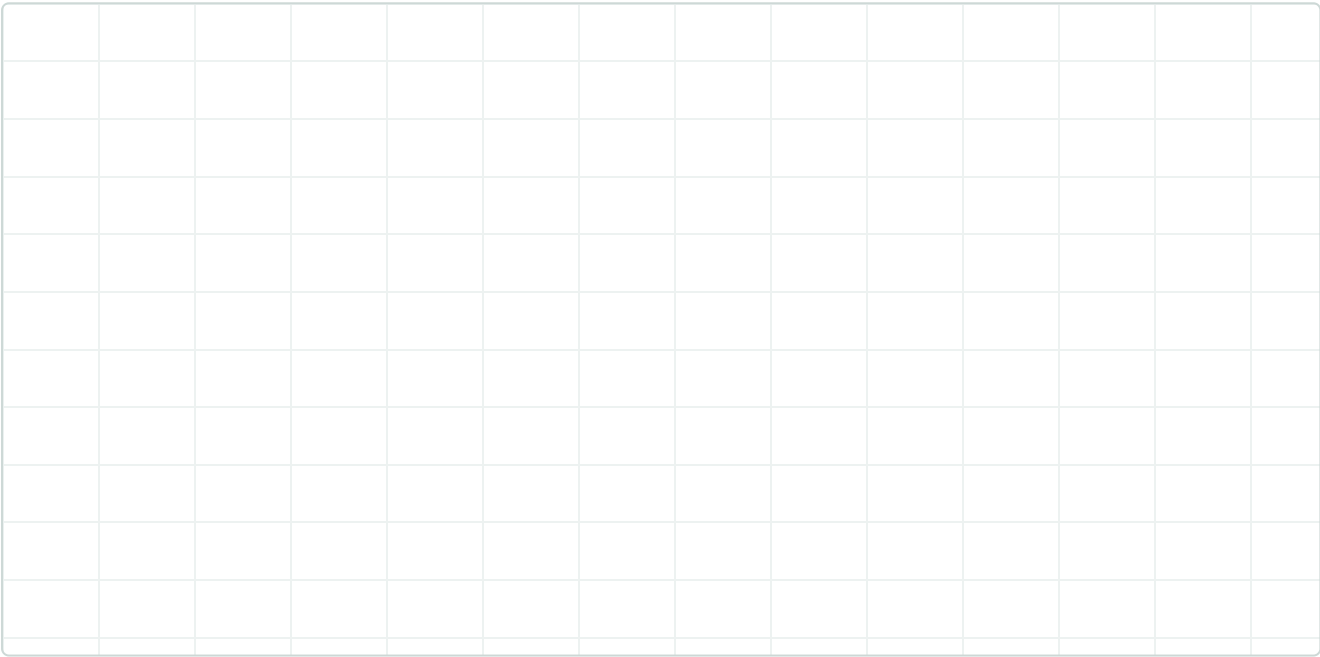

Anything unusual today?

Weight & Body Condition

DATE	WEIGHT	BODY CONDITION (1-9)	NOTES

Plot the trend

Weigh at the same time of day. Sudden loss or gain is worth a vet call.

Vet Visit Record

Date	Reason for visit
Weight today	Temperature
Questions I want to ask	
Diagnosis & vet's notes	
Treatment / meds prescribed	
Next visit	Cost

Symptom Diary

DATE	SYMPTOM	SEVERITY	WHAT HELPED / NOTES

Severity: 1 = barely noticeable, 5 = severe. Patterns over time help your vet diagnose faster.

Feeding & Diet Log

Current food

Daily amount

DATE	BREAKFAST	DINNER	TREATS / EXTRAS	APPETITE

Caring for a senior dog is hard work and deep love. Use this page for anything — questions to look up, changes you've noticed, or the little happy moments worth remembering.
